The image shows a 3x3 grid. The first column is shaded gray. In the bottom-left corner, there is a black geometric shape that resembles a stylized arrow or a corner piece, pointing towards the center of the grid. The shape is composed of several triangles and quadrilaterals, with some areas overlapping the grid lines.

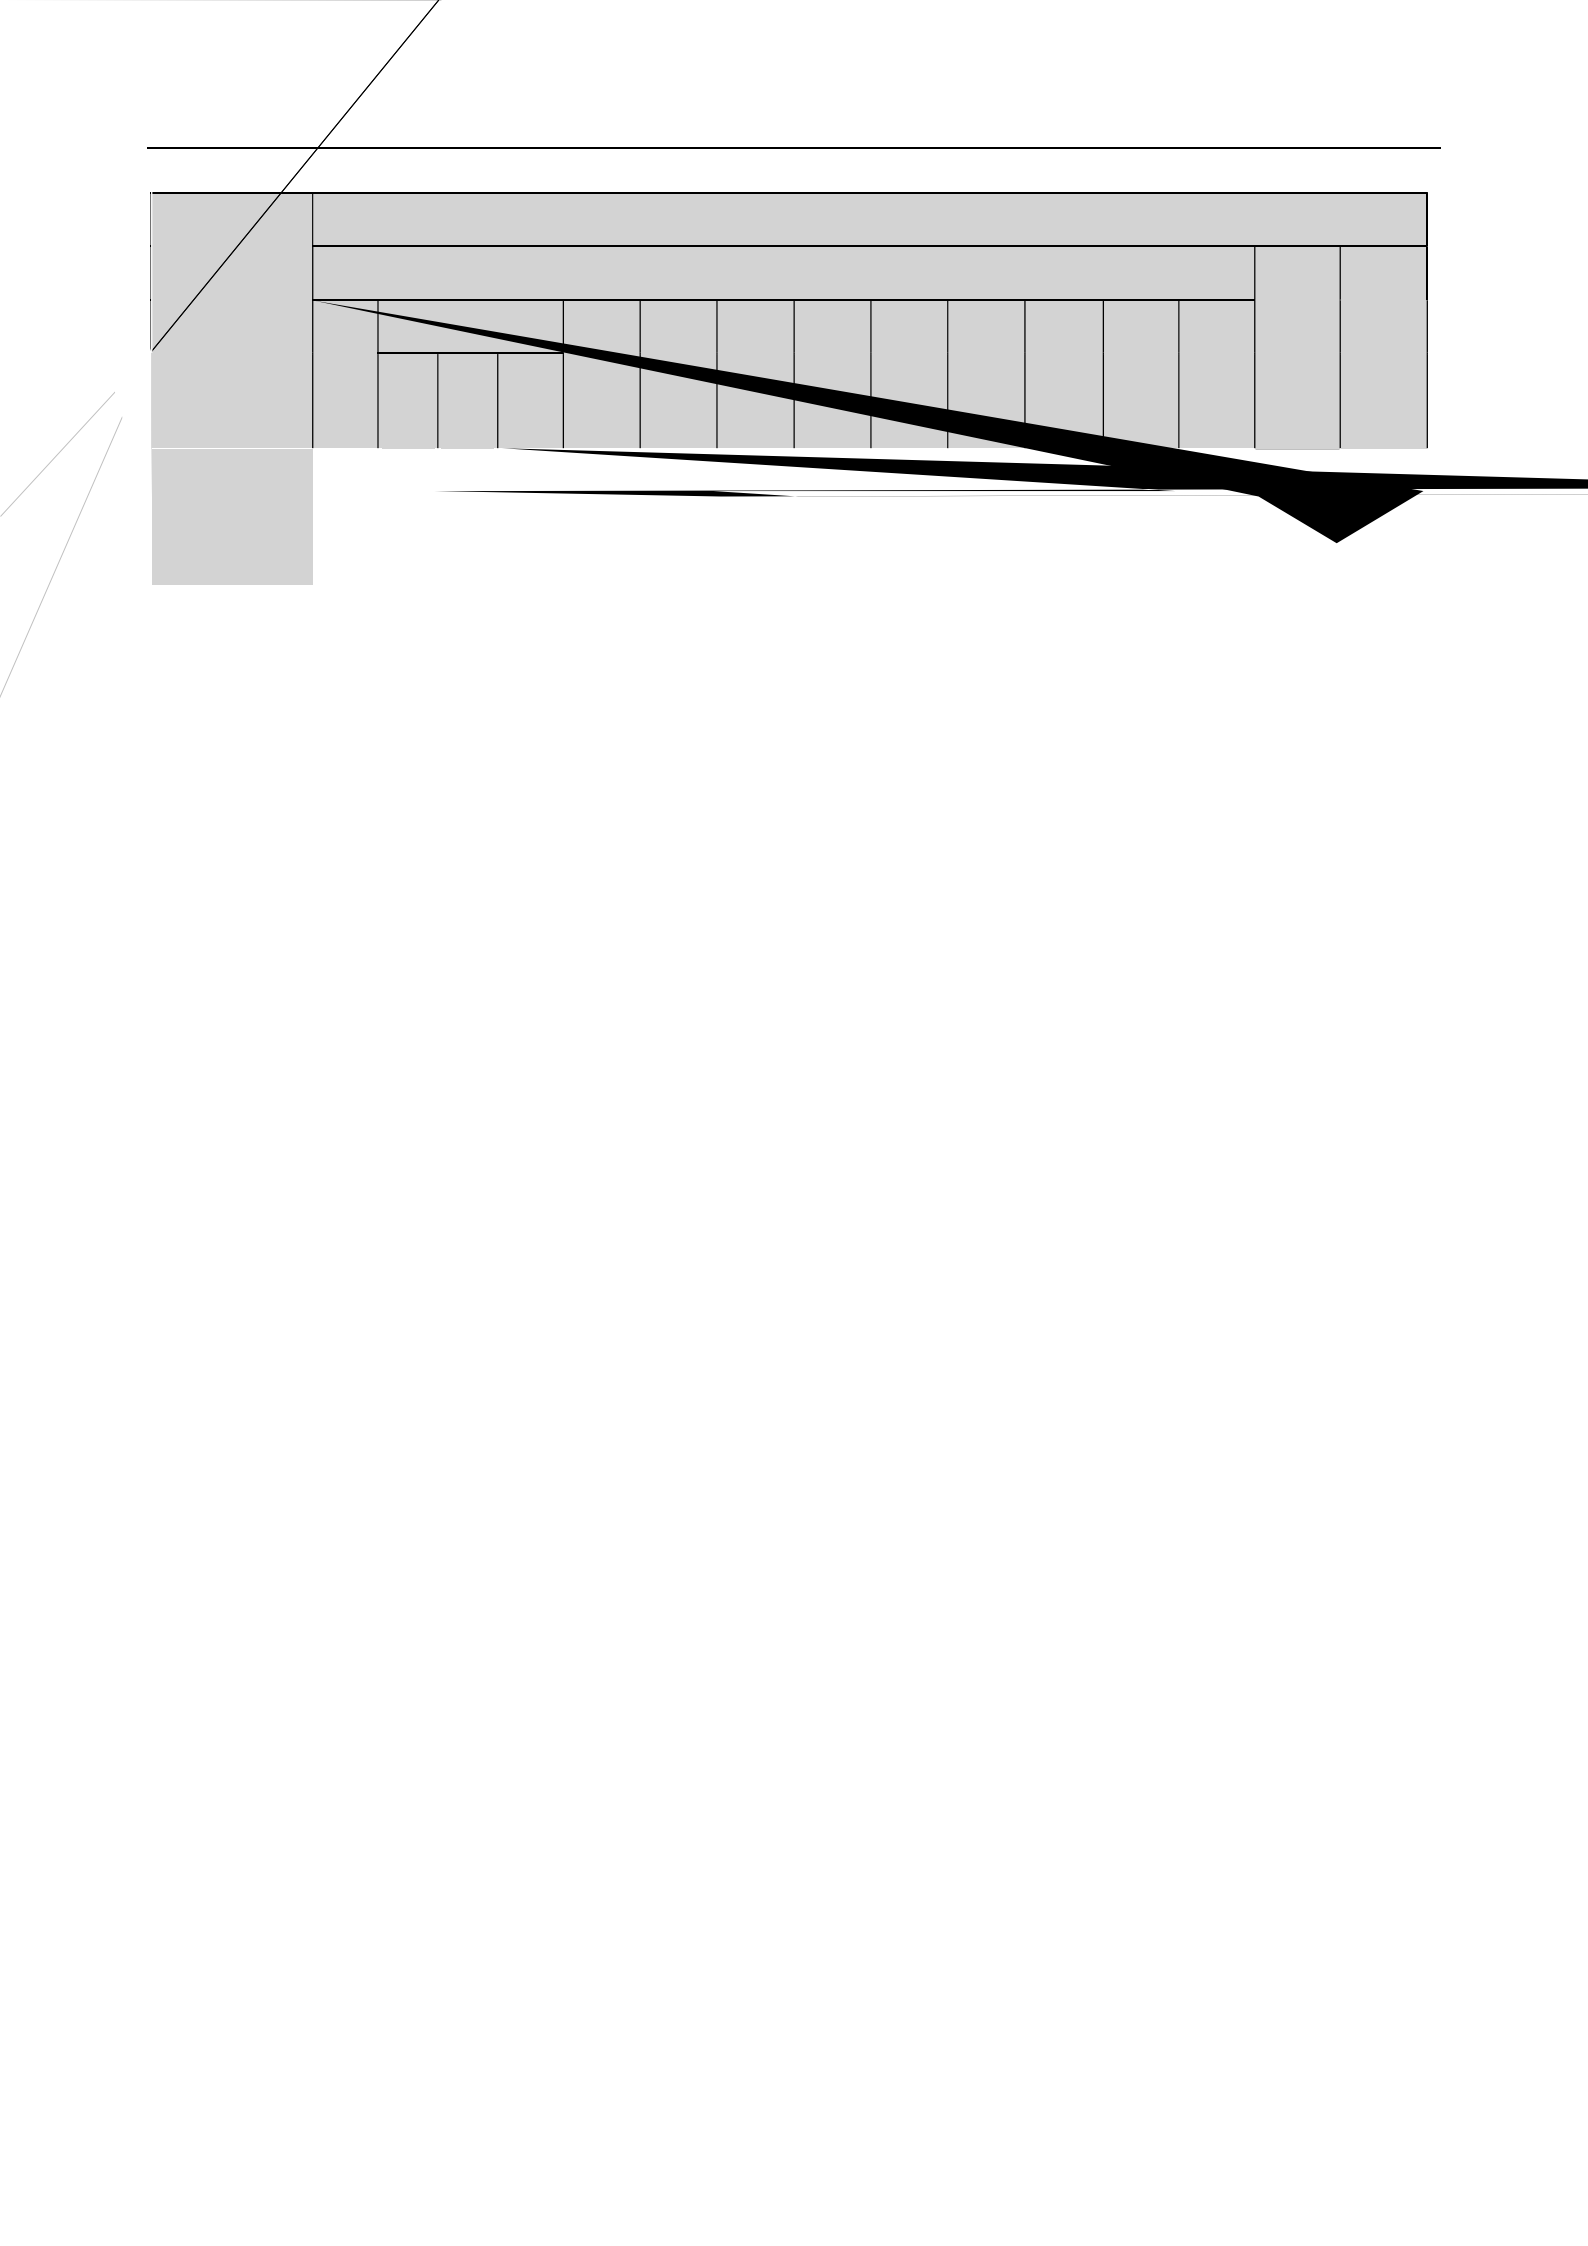

[illegible]

A complex geometric pattern featuring a grid of squares. The pattern is composed of black, white, and gray squares. The black squares form a large, irregular shape that dominates the center of the image. The white squares are arranged in a grid-like pattern, with some squares being filled with a light gray color. The overall effect is a stylized, abstract design that resembles a modern architectural or graphic element.

The diagram illustrates a hierarchical tree structure. The root node is a large gray rectangle on the left. It branches into two main paths. The upper path consists of a series of gray rectangles, with the final node being a large gray rectangle on the right. The lower path consists of a series of gray rectangles, with the final node being a large gray rectangle on the right. A black arrow points from the root node to the first node in the lower path. The diagram is composed of several gray rectangles of varying sizes, connected by black lines. A black arrow points from the root node to the first node in the lower path.
